### ::: » 101 Breaking News«

#### **and the » 101 Bush Telegraph« on site**

Due to external circumstances, i.e. weather caprices, there can always be changes in the program during the event. This mainly affects the program on our 1/8 Mile.

#### **The following applies:**

##### **No sprints will take place on a wet track!**

If rain starts during a sprint, it will be stopped immediately and the 1/8 Mile will be closed. When a restart will take place will be decided by the 101 Race Control.

##### **The 101 Race Office will provide information on when the sprints will restart.**

#### **If any sprints are delayed by a full day, we'll let you know via 101 Facebook and Instagram about the new schedule with our on-site » 101 Breaking News«!**

At the latest in the early morning of the next day these »101 Breaking News« will be online! We ask each of our participants as well as visitors to pass these »101 Breaking News« then also verbally to friends and acquaintances on site. This is then our 101 Bush Telegraph – and as the brief freak weather on 101 Saturday 2022 showed us, it works brilliantly on the 101 site!

#### **We recommend every participant, every team, to follow us on Facebook and/or Instagram - also in the run-up to the event!**

**101 News as well as changes in the schedule will be posted there promptly by us and you will always stay informed.**

### ::: A final recommendation

You can take two companions with you into the 101 starting zone. **Take advantage of the 101 atmosphere!** Have someone with you who can take great photos/videos of you with a camera or a good smartphone. Especially when the starting flag of our flag girl falls for you.

We wish you and your companions a safe journey as fun and godspeed on our 1/8 Mile.
